Madison Smith reported that she and the suspect began engaging in consensual sexual intercourse when the suspect, without warning, repeatedly slapped her across her face, and strangled ("choked") her with both hands while he was on top of her. Madison tried remove his hands from around her neck but was unable to: when she would struggle, he would squeeze harder until she started to lose consciousness. There was no prior communication, this was the first time being intimate. There were marks left on her body (neck) from the encounter.

The purpose of this petition is to request a Grand Jury to review the facts of February 11, 2018.

Madison Smith reported that she and the suspect began engaging in consensual sexual intercourse when the suspect, without warning, repeatedly slapped her across her face, and strangled ("choked") her with both hands while he was on top of her. Madison tried remove his hands from around her neck but was unable to: when she would struggle, he would squeeze harder until she started to lose consciousness. There was no prior communication, this was the first time being intimate. There were marks left on her body (neck) from the encounter.

The County Attorney filed one count of Aggravated Battery (Strangulation). The County Attorney refuses to add the charge of Rape to the Information because Madison didn't verbally revoke consent while being strangled. Madison believes the charge of Rape should be added to Aggravated Battery among others charges.
